

STEM Expo

Sponsorship Levels and Benefits

You can make a difference in the community, as well as in the lives of young STEM innovators, as you achieve your marketing, branding and public relations goals in support of STEM Education. Support young scientists, technicians, engineers and mathematicians, and meet some of the most exceptional 3rd–12th grade students in California!

STEM Expo is the innovative alternative to the typical science fair. This exciting, free, one-day event features Science, Technology, Engineering and Mathematics [STEM] as educational opportunities and viable career paths - showcasing elementary through high school student-generated work - connecting students with their community. We are an entirely volunteer run organization, all of the funding that we receive goes directly to support the event or the students and their exhibits.

Student participation in the event is free of charge, allowing us to make sure there is no barrier based on income level. Non-traditional project groupings give every student an opportunity to participate, even if they never have considered a STEM type project in the past. Awards and prizes for each category celebrate the top level entries, and every student project is recognized for the successes that are presented, and each student takes home a certificate that shows their participation.

With seven categories that get children thinking about STEM in non-“standard” ways, STEM Expo is now recognized as the model for the next generation of student science competitions. We have presented our concept and format to educational conferences around the country, and many other locations are replacing their traditional science fairs with STEM Expo based events that get the students excited about Science, Technology, Engineering, and Math.

STEM Expo, Inc. is a not for profit corporation established under the laws of the State of California in 2014 (our EIN is 47-0994989). A copy of the Federal 501(c)(3) Public Charity Determination letter and a copy of the California Non-profit Exempt Acknowledgement letter are available on our website at <http://www.stemexpo.org/NonProfit>

Please take a look at the opportunities for sponsorship that we are offering to you. We are happy to talk with you about customized arrangements, including in-kind equivalence, personnel support, guided funding, etc. Do not hesitate to contact us about how you would be able to help!

You are welcome to focus any donation towards a specific event in your area or we will use the funds to support STEM Expo events and operations throughout the country.
